Skills

Technologies & Tools: React Native, React.js, TypeScript (ES6+), Redux, Zustand, Next.js, Expo, GraphQL, Node.js, Jest, Cypress, Detox, CI/CD (GitHub Actions), Android (Kotlin), REST APIs, Performance Optimization, Mobile Architecture, Clean Architecture, Firebase, AWS CDK.

Work Experience

Creative Synergies Group, Bengaluru

May 2025 - Present

Software Engineer (Full Stack)

- Delivered scalable cross-platform modules by building reusable UI components in **React Native** and **React.js**, improving delivery velocity by 30%
- Engineered optimized **REST** and **GraphQL** integrations with data normalization and caching, reducing network latency by 25%
- Implemented **Clean Architecture** for mobile apps ensuring 95%+ crash-free sessions and consistent behavior across Android/iOS
- Automated CI/CD workflows using **GitHub Actions**, Fastlane, and Gradle, cutting release cycles by 50%
- Strengthened code quality by integrating Jest and Cypress into the delivery pipeline, achieving 80%+ code coverage
- Led collaboration across UI/UX and backend teams, delivering responsive interfaces and real-time geolocation features
- *Stack: React Native, React.js, TypeScript, Redux, GraphQL, Node.js, CI/CD*

HealthFlex, Bangalore

Mar 2024 - May 2025

Founding Engineer (React Native)

- Built and scaled two production-level **React Native** apps for iOS and Android, achieving a 95% crash-free rate for 1,000+ active users
- Implemented state management with **Redux** and Context API, improving app stability and predictable rendering
- Created a native BLE integration module handling 20 Hz real-time device streaming with **RxJS**, reducing latency by 40%
- Improved load performance by 40% using code splitting, image optimization, memoization, and Hermes engine tuning
- Implemented **Jest + Detox** test suites (55+ tests), supporting TDD and automated quality checks
- Automated builds and App Store deployments using Fastlane + GitHub Actions; integrated Firebase for analytics and monitoring
- *Stack: React Native, TypeScript, Redux, RxJS, Jest, Detox, Fastlane, Firebase*

EMotorad, Bangalore

Sep 2023 - Nov 2023

Mobile App Developer Intern

- Built navigation and rider telemetry features integrating complex REST APIs using modular MVVM architecture
- Implemented optimized background services and multi-threaded data handling reducing connection latency by 40%
- Integrated Mapbox SDK with offline caching, reducing external API usage by 70%
- Ensured maintainable code quality through SOLID principles, reviews, and 80%+ test coverage
- *Stack: Flutter, Android Native, Mapbox, REST APIs*

PySphere LLP

Nov 2021 - Sep 2023

Frontend Developer (React.js)

- Built responsive, high-performance React.js + Next.js apps improving page load times and SEO
- Developed reusable UI systems and Hooks, reducing development time by 40%
- Integrated secure REST APIs and OAuth flows, improving system reliability and reducing manual processes by 80%
- Increased user engagement by 35% through UX-focused component designs and mobile responsiveness
- *Stack: React.js, Next.js, TypeScript, OAuth2, Jest, Figma*

Education

A.M.C. Engineering College (VTU), Bengaluru

2020 - 2024

B.E. in Computer Science and Engineering

CGPA: 7.96/10

Relevant Coursework: Data Structures & Algorithms, Web Technologies, Mobile App Development, DBMS

Project Work

- **Gourmet.Craft (React/Next.js):** High-performance web app showcasing React Hooks, modular UI patterns, and responsive interface design.
- **Tomorrow Weather (Mobile Architecture):** Scalable architecture template demonstrating Clean Architecture & SOLID principles.
- **String Calculator (TDD):** Fully tested logic engine built using pure TDD principles with 13+ unit tests and CI integration.

Awards and Certificates

- Meta React Native Professional Certificate — Meta (Coursera)
- OpenJS Node.js Application Developer (JSNAD) — OpenJS Foundation
- Google Associate Android Developer (Kotlin) — Google
- AWS Certified Developer – Associate — AWS
