Skills

Frontend & UI: React, React Native, Flutter, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Android (Kotlin), iOS, Responsive Design, Accessibility (WCAG)

Tools & Infrastructure: Git, GitHub Actions, Figma, Azure DevOps, Gradle, Fastlane, Firebase, Jest, AWS CDK, REST APIs

Work Experience

Creative Synergies Group, Bengaluru

May 2025 - Present

Software Engineer (UI/Frontend)

- Developed responsive, user-friendly UI components for an enterprise FSM mobile application using **Flutter** and **Clean Architecture**, ensuring consistent design across Android and iOS devices.
- Collaborated with UX/UI designers to translate Figma mockups into pixel-perfect interactive interfaces, optimizing rendering performance and achieving 95%+ crash-free sessions.
- Implemented **NestJS** microservices to support frontend requirements, integrating role-based access control (RBAC) to tailor user interfaces for 100+ field engineers.
- Enhanced mobile user experience by building a native Android document scanner in **Kotlin** with **ML Kit**, streamlining data capture workflows and improving usability.
- Established **CI/CD** pipelines using **GitHub Actions** and Gradle for automated testing and deployment, reducing UI release cycle time by 50%.
- Championed code quality by conducting code reviews and driving **TDD** with **Jest** and **Flutter Test**, achieving 80%+ test coverage for critical UI modules.
- *Stack:* Flutter, React, TypeScript, Kotlin, Figma, GitHub Actions, NestJS, Android, iOS

HealthFlex, Bangalore

Mar 2024 - May 2025

Founding Engineer (Frontend Focus)

- Led the frontend development of two cross-platform **React Native** applications, delivering a seamless user experience for 1,000+ users on both Mobile and Tablet devices.
- Optimized UI performance and responsiveness, reducing load times and achieving a 95% crash-free rate through rigorous testing and performance tuning.
- Collaborated on user testing sessions, applying feedback to refine interface designs and interactions, which directly improved user engagement metrics.
- Engineered a real-time **BLE** data visualization module using **RxJS**, ensuring smooth UI updates at 20Hz without compromising main thread performance.
- Managed mobile app releases via **Fastlane** and **Gradle**, ensuring rapid delivery of UI improvements and feature updates to Android and iOS stores.
- *Stack:* React Native, TypeScript, JavaScript, CSS, Figma, Git, Firebase, Android, iOS

EMotorad, Bangalore

Sep 2023 - Nov 2023

App Developer Intern

- Built the frontend for an E-Bike rider assistant using **Flutter**, implementing **MVVM** architecture to separate UI logic from business rules for better maintainability.
- Integrated Mapbox for a rich, interactive navigation interface, optimizing map rendering and caching to ensure smooth performance on mobile devices.
- Enhanced user experience by implementing real-time location tracking and adaptive UI themes, ensuring consistency across different screen sizes and environments.
- *Stack:* Flutter, Dart, Mobile UI, Mapbox, Figma, Git, REST APIs

Frontend Developer / Research Fellow

- Developed **Carer Connect**, a responsive web application using **React** and **Next.js**, ensuring cross-browser compatibility and adherence to modern UI/UX principles.
- Increased web traffic by 45% by redesigning the company website with a focus on responsive layout, accessibility, and visual appeal using **HTML**, **CSS**, and **Figma**.
- Implemented deep linking and push notifications to drive a 35% increase in user engagement, creating a more cohesive and interactive user journey.
- *Stack*: React, Next.js, TypeScript, HTML5, CSS3, JavaScript, Figma, UI/UX

Education

A.M.C. Engineering College (VTU), Bengaluru	2020 - 2024
B.E. in Computer Science and Engineering	CGPA: 7.96/10
Relevant Coursework: Web Technologies, Mobile Application Development, UI/UX Design, Data Structures & Algorithms	

Project Work

- **Gourmet.Craft (Next.js/TypeScript)**: Developed a modern, responsive web application deployed on Vercel, demonstrating advanced **UI component patterns** and frontend architecture best practices. gourmet-craft.vercel.app
- **Tomorrow Weather (Flutter)**: Created a weather app template showcasing **Clean Architecture**, responsive UI layout, and seamless animations for an enhanced user experience. github.com/vancityAyush/tomorrow_weather
- **String Calculator (TDD)**: Implemented a logic module using **TDD** methodologies with 13+ unit tests, ensuring code reliability and maintainability.

Awards and Certificates

- Meta React Native Professional Certificate — Meta (Coursera)
- Google Associate Android Developer (Kotlin) — Google
- OpenJS Node.js Application Developer (JSNAD) — OpenJS Foundation
- AWS Certified Developer – Associate — Amazon Web Services (AWS)
